## Minimum Spend:

There is no strict minimum spend, however my couples generally spend upwards of £600.00. Where mileage is applicable it will be charged at 90p per mile and added to your quote.

Additional day's styling, multi venue dressing and additional room change overs will be charged extra.

# WEDDING FLORALS AND STYLING

*Seeing your bride's beaming face as you drop off her bouquet, catching the groom gasp at the first glimpse of the ceremony and the newly wed couple's joy at seeing their reception dreams made a reality.*

*These are just some of the highlights for me on your wedding day!*

At the start of your journey with us we'll ask about your ideas and look at the inspirational designs you've found and love.

From this we'll discuss colour palettes, flowers, vessels and styling.

As well as your wedding florals we also offer venue styling to give you piece of mind that the design of your wedding day will flow seamlessly from your bridal party flowers through to your venue design and styling.

From booking I'll be in hand to offer as much guidance and support as needed. On the day my small team and I will deliver your bouquets and dress your venue so you can relax and enjoy your day. We'll then return the following day to collect all hired items.

I've created a selection of packages based around our most frequently requested wedding florals, these can built upon and tailored to your style.

Styling services and extras can be added to all packages.

If these packages don't work for you, we can create a completely bespoke design package. These prices vary depending on the size of your wedding and your individual floral preferences.
